

# Python for Data Science Certification FAQs

- [How do I enroll for the online training?](#)

1. You can enroll for the online training through our website.
2. Press “Place Order” button.
3. You will be directed to Waza Academy’s registration page. So, you will have to register, create your account and sign in then.
4. You will be asked to make online payment using credit or wire transfer. After you click "Order", you will be directed to a confirmation page (based on the selected payment method you choose) to proceed in purchasing the selected course.
5. After paying the online course fees, the online course access will be granted to you within 1 week after receiving the payment.
6. An automatic email will be issued by Simplilearn (the course provider) to you with your access data information to access your LMS and start the course.

- [What will I get along with this training?](#)

In this training, you will have access to online e-learning and practice tests.

- [Can I cancel my enrollment? Do I get a refund?](#)

The course fees are not refundable. However, you can contact us any time before enrolling in the course to know all the needed information before registering your course(s).

- [I am not able to access the online course. Whom should I contact for a solution?](#)

Please send us an email and we will have your issue resolved within 2 days.

- [Will I have the same access to the free course included with this course?](#)

- Yes, you will be provided by the same access to the free course.

- [What do I need to do to unlock my certificate?](#)

- To become a Certified Data Scientist with Python, you must fulfill the following criteria:

- ✓ Complete any one project out of the two provided in the course. Submit the deliverables of the project in the LMS which will be evaluated by our lead trainer.
- ✓ Score a minimum of 60% in any one of the two simulation tests
- ✓ Complete 85% of the course.

**Note:**

- ✓ When you have completed the course, you will receive a three-month experience certificate for implementing the projects using Python.
- ✓ It is mandatory that you fulfill both the criteria i.e., completion of any one project and clearing the online exam with minimum score of 60%, to become a certified data scientist.

- Who provides the certification?
- At the end of the training, subject to satisfactory evaluation of the project as well as clearing the online exam (minimum 80%), you will receive a certificate from Simplilearn stating that you are a Certified Data Scientist with Python.
